

Co-funded by the
Erasmus+ Programme
of the European Union

Fundación Laboral de la Construcción has developed along with other three European partners the Project named **Systematic approach to enhance the participation of construction industry SMEs in apprenticeship programs (Co.Tutor)**, funded by Erasmus + and with number agreement 572751-EPP-1-2016-1-ES-EPPKA3-SUP-APPREN.

The main goal of the Project is to join efforts from VET centres and employers' associations to reinforce their role as intermediary bodies in apprenticeship programs, as well as to create a leverage effect in apprenticeship culture in Italy and Spain through a boost of in-company tutor.

We carried on activities that allowed us to get a Strategic Roadmap to enhance the apprenticeship systems and to create a quality framework to support companies, particularly SMEs, to foster the role of qualified trainers and tutors.

In case you are interested in endorse this initiative, you could send signed us this letter of support, bearing in mind your key position and scope of influence linked to Education and Training and/or Construction industry.

Thank you very much for your support.

Please, write name, surname, organization, position and signature.

Bearing in mind above information, I accept to support Co.Tutor Project.
